How to add a new tournament to the system

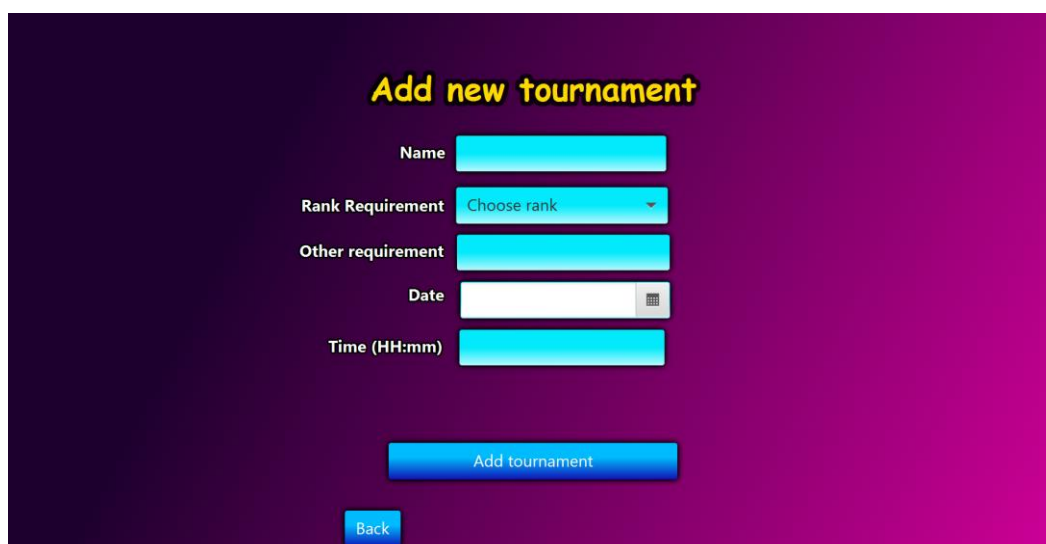

To add a new tournament to the system, click on the button that says “Add new tournament” above the tournament-overview. This will lead to a page where you can select what the tournament consists of. Click on the text box next to “Name” to write a tournament-name. Click on the text box next to “Rank Requirement” to write the lowest

rank requirement a team to enter the tournament. Click on the text box next to “Other Requirement” to write another requirement that a team must fulfill to enter the tournament. This can for example be “NTNUI-membership”. To enter the start-date of the tournament, select the calendar-symbol next to “Date” and choose a date from the calendar that will pop up. To write the start-date manually, click on the text box next to “Date”, and write the date in this format: dd.mm.yyyy (where d is a digit in day, m is a digit in month and y is a digit in year). To write the start-time of the tournament, select the text box next to “Time (HH:mm)” and write the time in the format. HH.mm (where H is a digit in hour and m is a digit in minute). Finally, press the button that reads “Add tournament” to add tournament to the system. Doing this, a dialog box will pop up and confirm that the tournament is added. Press “OK” to continue (remove box). This will redirect you to the overview of the tournaments in the system, with a new team added. If you do not wish to add a tournament, press the back-button in the bottom left. This will also redirect you to the overview of the tournaments of the system.

How to add a new team to the system

To add a new team to the system, click on the button that says “Add new team” above the team-overview. This will lead to a page where you can select what the team consists of. To decide the team’s name, click on the text box next to “Team name”. To enter the players’ names, click on the text boxes that reads “Name” next to “Player 1”, “Player 2” etc. To enter their rank, choose an existing rank from the drop-down menu that reads “Rank” next to “Player 1”, “Player 2” etc. Finally, press the button that says “Add team” to add a team to the system. Doing this, a dialog box will pop up and confirm that the team is added to the system. Press “OK” to continue (remove box). You can now add more teams to the system if you wish. If you do not wish to add a team to the system, press the back-button in the bottom left. This will redirect you to the overview of the teams in the system.

How to add eligible teams to a tournament

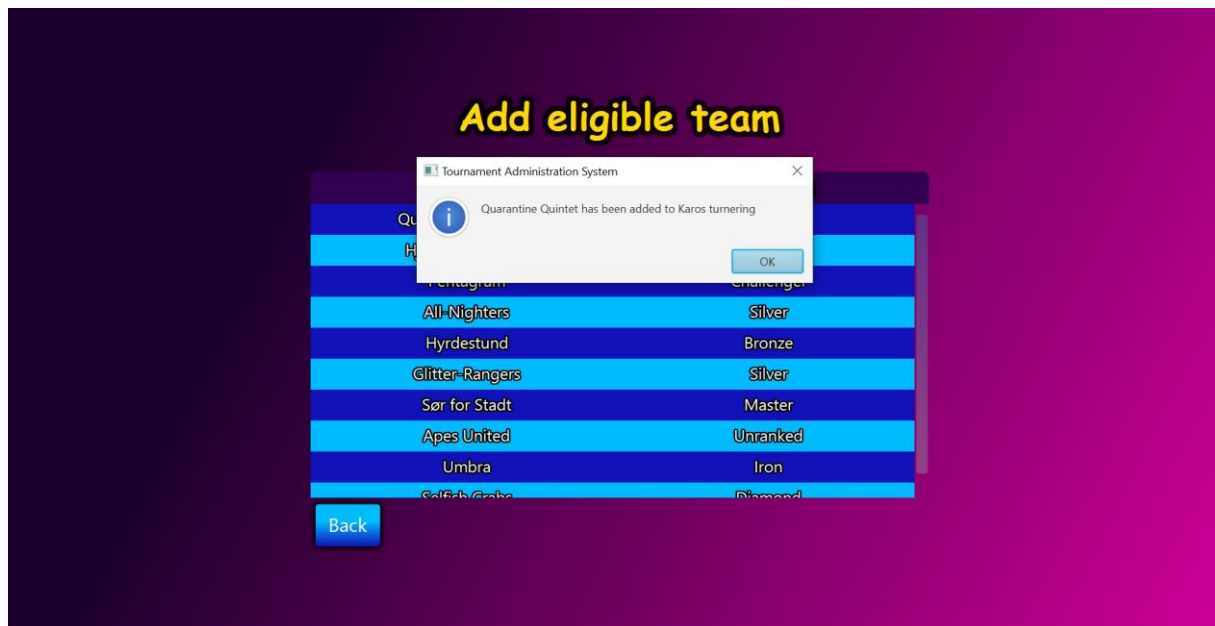

To add a new team to the system, click on the button that says “Add eligible team” next to the team-overview in a specific tournament. This will lead to a page where you can select teams to add to the tournament. You can do this by clicking on one of the represented teams. Doing this, a dialog box will pop up and confirm that the team is added to the selected tournament. Press “OK” to continue (remove box). You can now add more teams to the tournament if you wish. If you do not wish to add a team to the tournament, press the back-button in the bottom left. This will redirect you to the overview of the teams in the tournament. If you want to save changes, press the save-button below the button that reads “Add eligible team”/above the edit-button.

How to edit an existing tournament

To edit an existing tournament, choose an existing tournament and press the edit-button below the save-button/above delete button. This will redirect you to the edit tournament page. Here, you may edit what you wish by clicking on the text box next to what you want to change (read "How to add a tournament to the system" for further instructions on how to choose the right boxes.). When you have finished the editing, simply press the button that reads "Save changes". This will lead to a confirmation box popping up. Press "OK" to

continue. Doing this will redirect you to the overview of the tournaments in the system, where you may notice changes you made.
